PROFILE

As a Senior Software Engineer, I specialize in developing robust applications using JavaScript and its associated frameworks including **Vue.js, React, React Native, Express.js, Nuxt.js, NestJS, Framework 7** etc. My expertise extends to **Docker, Kubernetes** and **Google Cloud**, enabling me to architect, develop and deploy large-scale software that meets high-quality business requirements.

Beyond technical skills, I am committed to professional development and knowledge sharing. I have mentored developers across **8 countries** through **ADPLIST** and maintaining Top Rated status. This experience has enabled me to support the professional growth and skill development of emerging talent in the international software engineering landscape.

EXPERIENCE
